Data and AI Foundation Strategy

A governed data foundation to accelerate client onboarding, Member 360, affordability intelligence, workflow automation and AI.

DATA ECOSYSTEM

1. **PBM / CLIENT**
   Claims, eligibility, benefits
2. **PRIOR AUTH**
   FMH, Agadia, SureScripts
3. **REFERENCE**
   NCPDP, NPPES, drug data
4. **MANUFACTURER**
   Copay, rebates, coupons, 340B
5. **MEDICAL / NETWORK**
   Medical claims and pharmacy networks

MODERN DATA PLATFORM | DATABRICKS LAKEHOUSE

1	2	3	4	5
INGEST	STANDARDIZE	INTEGRATE	GOVERN	PUBLISH
Reusable pipelines	Quality and validation	Canonical data model	Lineage and security	Gold data products

LAKEHOUSE TIERS

BRONZE
Raw / ingested

SILVER
Standardized / canonical

GOLD
Curated business data products

CONSUMPTION
Member 360 • Affordability intelligence • Reporting • AI / ML • Workflow automation • APIs

PRIORITY DATA DOMAINS

- Pharmacy claims & history
- Member eligibility & benefits
- Prior authorization data
- Drug & reference data
- Manufacturer programs
- Medical claims & network data

STRATEGIC OUTCOMES

- Unified, trusted data foundation
- Faster partner and client onboarding
- AI-ready data for decisioning
- Improved quality and governance
- Scalable analytics and operations

STEERCO TAKEAWAY

Prioritize the highest-value data sources and establish scalable ingestion, governance and Gold-layer data products to accelerate Member 360 and future AI capabilities.
